

## October 8th , 2018 Meeting Summary

Minutes for September approved

Members present: Rachel Verno, Chair; Steve Abramson, Marlene Haresign, Steve Lerner, Jamie Egerton-Warburton, Rik Kristiansson

Guests present: Tim Maran, Cyndi Maran, Tom Halsey, Johanna Halsey, Thea R. Fry, Charlie Corwith, Patricia Halsey Wellen, Sister Mary Harvey, Johanna Halsey, Steve Storch, Mark Keenan, Tom Euell, Linda Euell, Phil Gay, Fred Havemeyer

### PHILIP YOUNG:

-Update on public hearing, letter being submitted with questions that went to Inter Science and the Planning Board.

### TRAFFIC:

-Rachel is meeting with Tom Neely and Councilwoman Scalera to discuss the intersection at Head of Pond Road and Lower Seven Ponds as well as left turns on to Rt. 27 off of Old Mill Road.

-Linda and Tom Euell discussed their concerns that there is no center lane heading west on Rt. 27 from the Parrish Museum, past Fairbanks Court all the way to the intersection with CR 39. There used to be a center lane and without it, it creates dangerous conditions for people trying to make left turns. Also discussed that heading west into the Village, there are two lanes and how one could easily be used for the center holding and turn lane on to Flying Point.

-Discussion about the bottleneck in Water Mill and how the merge off of Little Cobb Road adds to the congestion.

-Discussion about speed limit on CR 39 at 45mph instead of 35mph

-Discussed problems with the removal of the stops signs at the roundabout on Scuttlehole and Mitchell Lane. Anyone heading east and wanting to go down Millstone Road now has to hold up traffic.

-CAC decided we should hold a meeting devoted to traffic issues

### ROSE HILL ROAD:

-General update

### OTHER ISSUES:

-Councilman Schiavoni's proposal re: land use. CAC agrees to support a public hearing on the issue.

-Charlie Corwith raised the issue of the location in North Sea being used as a dumpsite. Code enforcement can't get access to the property. Suggested the North Sea CAC reach out to Bob DeLuca and the people who worked on Sand Land.
